

1 Inch all Aluminium Chairs

Designer: **Jasper Morrison**

Manufacturer: **Emeco**

~~Was £785~~ Now £667

DESCRIPTION

1 Inch all Aluminium Chairs by **Jasper Morrison** for **Emeco**.

The 1 Inch collection of stools are durable, lightweight and made of recycled aluminium. Emeco engineers used tools from the automotive industry to create holes in the seat and back which, when used outside, allow for rain to drain and wind to blow through.

Each hole is slightly contoured, this adds strength to the stool while reducing the overall weight.

The seat and back are welded onto the frame and the chairs are heat-treated, anodised and brushed to finish.

DIMENSIONS

Side chair: 51.4w x 49d x 46/78cmh

Armchair: 64w x 49d x 46/66/78cmh

MATERIALS

Recycled aluminium. Hand brushed, clear anodized finish.

Stackable up to 6 chairs.
