

## 1 Inch all Aluminium Stool

Designer: **Jasper Morrison**

Manufacturer: **Emeco**

£584

### DESCRIPTION

**1 Inch all Aluminium Stools** by **Jasper Morrison** for **Emeco**.

The 1 Inch collection of stools are durable, lightweight and made of recycled aluminium. Emeco engineers used tools from the automotive industry to create holes in the seat which, when used outside, allow for rain to drain through. Each hole is slightly contoured, this adds strength to the stool while reducing the overall weight.

The seat is welded onto the frame and the stools are heat-treated, anodised and brushed to finish.

### DIMENSIONS

Small: 38w x 38d x 46cmh

Counter stool: 40w x 40d x 62cmh

Barstool: 42w x 42d x 76cmh

### MATERIALS

Recycled aluminium. Hand brushed, clear anodized finish.
