

28.1 Single Pendant

Designer: **Omer Arbel**

Manufacturer: **Bocci**

£811

DESCRIPTION

28.1 single pendant by **Omer Arbel** for **Bocci**.

Bocci's 28 series pendants, designed in 2005, are made using a complex glass blowing technique in which air pressure is intermittently introduced into and then removed from a glass matrix. The result is a distorted spherical shape with a composed collection of inner shapes, one of which is made of opaque milk glass and houses a low voltage (12V, 20Watt xenon) lamp.

The series 28.1 pendant may be used alone or clustered to create a striking lighting array, in a manner similar to Bocci's **14 series** lights. Also available in a cluster of **three globes** or in **chandelier formation**.

Available in clear or coloured glass. **Please note:** pricing given is for clear glass option. Details of additional colours available may be viewed on the downloadable specification sheet; please enquire for details of pricing.

Bocci's **28 series configurator** may be used to explore the different combinations of colour and pendants available within the 28 series.

Supplied with 3m coax cable as standard. Additional length is available at a surcharge; please **enquire** for details.

IP40 rated.

DIMENSIONS

16.5dia x 16.5cmh

MATERIALS

Blown glass using air pressure.

Bulb (**included**): Halogen / Xenon 12V 20W,
LED 12V, 1.5W option also available: please **enquire** for details.
