

73T Table Light

Manufacturer: **Bocci**

£671.67

DESCRIPTION

73T Table Light by **Bocci**.

Bocci uses glass blowing and glass, ceramics and metal sand-casting to produce their unique, hand-crafted lights.

73T is a table light made from glass, hand-blown into a folded and highly heat-resistant ceramic fabric vessel. It features an integral dimming system within a brass cylinder and the black fabric cord is semi-rigid so it can be adjusted to create a form. It can also be hung on a wall by the small notch beneath the brass stand.

Due to the cast glass organic process - hand-crafted and imperfect by nature - each piece produced is unique.

Please note: The brass base and dial control are untreated and, as such, will develop a natural patina over time.

DIMENSIONS

7.5cm diameter base with a 229cm long, flexible cable.

MATERIALS

Hand blown glass, black flexible cord with brass base and dial control.

Bulb (**included**): 1.8w LED.
