

Slow Coffee Set

Designer: **Keiji Takeuchi**

Manufacturer: **Alessi**

£95

DESCRIPTION

Slow Coffee Set by **Keiji Takeuchi** for **Alessi**.

Crafted to enhance our daily rituals, the Slow Coffee Set by Keiji Takeuchi beckons us to step away from the frenetic pace our days often take on. The daily routine allows us to slow down and reflect, with the reward of a delicious coffee at the end.

Although minimalist in its aesthetic, each detail has been thoughtfully designed, from the spout and handles' shape to the precisely measured dimensions of the three components.

The set comprises all the essentials for crafting the perfect cup of coffee: a carafe, a filter, and a filter holder. Although the coffee grinder is sold separately.

DIMENSIONS

12w x 19d x 25cmh

MATERIALS

The carafe is made from a heat resistant glass, the filter holder is made from porcelain and the mesh filter is made from 18/10 stainless steel.
