

Alfi 3-seat bench, 2015

Designer: **Jasper Morrison**

Manufacturer: **Emeco**

£1,418

DESCRIPTION

Alfi 3-seat bench by Jasper Morrison for Emeco.

The Alfi 3-seat bench bares the hallmarks of Jasper Morrison's Japanese-inspired 'super normal' philosophy. Made from reclaimed polypropylene and wood fiber with solid ash legs, the Alfi bench has a minimalist profile and a timeless aesthetic.

The Alfi Collection reflects Emeco and Morrison's common appreciation for the invisible qualities behind simplicity. Made of reclaimed and responsibly selected materials, engineered for comfort and strength, and designed to be humble and timeless.

Alfi seats are made of 100% reclaimed post-industrial waste – 92.5% polypropylene combined with 7.5% wood fiber. Bases are made of locally sourced wood and handcrafted by Amish craftsmen.

“Alfi is a highly comfortable, well-made chair for cafés, bistros, restaurants, kitchens, schools, libraries, waiting rooms and wherever else an impression of relaxed uniformity combined with visual and physical comfort is needed. It was inspired by the woven cane brasserie chairs you see out everywhere on Parisian sidewalks which have rounded backs and flat seats. The Emeco wood filled reclaimed polypropylene seat combines beautifully with the

ash wooden leg structures, providing a rich play of materials and finishes. It's one of the most comfortable chairs I have designed."

Jasper Morrison

DIMENSIONS

Low back: 169w x 47.5d x 45.5/61cmh

High back: 169w x 50d x 45.5/79.5cmh
