DESCRIPTION

Porcelain Brooch designed by **Alison Milner**.

British artist Alison Milner works in a number of natural and sustainable materials, such as enamel, clay, wood, paper and glass. With a clean aesthetic, often inspired by nature, she creates delicate motifs and patterns with an injection of subtle humour, visual poetry, and a sense of place.

Alison Milner's brooches are hand-shaped from porcelain and glazed. Those that feature her hand-drawn designs are then fired again once the motif has been added. Every brooch slightly differs in shape, making each one a unique and special accessory.

The lightweight brooches can be worn in singles, or grouped together with other designs to create interesting combinations.
