

Hand Brush and Dustpan Set

Manufacturer: **Andree Jardin**

£68

DESCRIPTION

Hand Brush and Dustpan Set by Andrée Jardin.

The Hand Brush and Dustpan Set is an aesthetically pleasing household cleaning accessory which no longer needs to be confined to the depths of your cupboard. Inspired by old collector cars and traditionally considered masculine materials, namely leather, the robust broom is accompanied by a sturdy metal pan, making it ideal for cleaning smaller messes.

Andrée Jardin's commitment to quality and sustainability is evident in the materials they use and their manufacturing process. By producing their brushes in small batches, they can minimise waste and ensure that each brush meets their exacting standards.

Their use of natural materials like hog bristle, horsehair, and plant fibres not only ensures the quality of their brushes but also reduces their environmental impact. Sourcing wood from sustainably managed forests, they help to preserve these natural resources for future generations.

DIMENSIONS

Handbrush: 30w x 9d x 3 cmh

/ Weight: 0,19 kg
