

## Mist Pendant

Designer: **All the way to Paris**

Manufacturer: **andtradition**

£300

## DESCRIPTION

**Mist Pendant** by **All the Way to Paris** for **&Tradition**.

The Mist lighting series introduces a subtle touch of refined opulence into your interior, providing an impeccable fusion of shape, utility, sophistication, and cosiness. Its design draws inspiration from the gentle, diffused illumination of morning sunbeams filtering through the mist, presenting a contemporary interpretation of the timeless spherical light design.

Constructed using mouth-blown opal glass accompanied by white-coated aluminium accents and a fabric cord, the Mist pendant lamp is offered in two distinct sizes. It can be suspended individually for a solitary statement or clustered in multiples to compose a grander lighting composition. The pendant's uncomplicated design purposefully directs attention to the radiance it emits, fostering an ambience of serenity and visual unity.
