DESCRIPTION

Pavilion Barstool by Anderssen + Voll for &Tradition.

The Pavilion range by Anderssen & Voll pays homage to Copenhagen's Langellini Pavilion, a wholly modernist building designed by architect couple Eva and Niels Koppel. Designed for the pavilion itself, this range of furniture embodies the minimalist construction of the movement.

Designed to suit the surroundings of the building, the Pavilion barstool blends the old with the new. A traditional laminated veneer seat and seat back is form pressed into an ergonomic shape to better support the sitter. The tube frame eschews the fixed angles of traditional modernist design and adopts more natural curves. The result is a pragmatic stool that doesn't burden the space in which it stands, well suited for use in bars, restaurants, or the kitchen at home.

Available as a low counter stool or tall barstool.

Only the counter stool in the lacquered oak seat and the barstool with the lacquered walnut seat are available for quickship.
