DESCRIPTION

Develius Mellow Modular Sofa, Configuration A by Edward van Vliet for &Tradition.

A refinement of the Van Vliet's design from 2018, the Develius Mellow offers an even softer seating experience while preserving the architectural aesthetic of the original design.

Van Vliet describes the evolution of Develius as a maturation of the entire concept, with the addition of a removable cover extending its overall lifespan.

Central to the design of the sofa is its visual lightness achieved via its black wooden legs that elevate the seat. This feature allows it to easily slot into any room without appearing too heavy.

The Configuration A sofa is made up of the EV8A and EV8B modules, creating a comfortable two-seater suitable for any contemporary space.

The range includes a variety of options such as chaise longue pieces, end pieces with and without arms and poufs. To see all the available modules, see the product specifications pdf.

Please note that the pricing example seen here is for configuration A. Please enquire about custom configurations.
