DESCRIPTION

Develius Mellow Modular Sofa, Configuration C by Edward van Vliet for &Tradition.

The Develius Mellow is an evolution of the original Edward van Vliet's design from 2018. Retaining the structural framework of the core Develius family, the Mellow includes an additional padded layer, offering a softer seating experience while preserving the architectural aesthetic.

Van Vliet describes the development of the Develius as a maturation of the entire concept, emphasising that adding a removable cover extends the sofa's lifespan.

A key aspect of the sofa's design is its visual lightness, achieved through black wooden legs that elevate the seat. This feature ensures the sofa effortlessly integrates into any room without appearing overly heavy.

The range includes a variety of options such as chaise longue pieces, end pieces with and without arms and poufs. To see all the available modules, see the product specifications pdf.
