DESCRIPTION

Develius Mellow Modular Sofa, Configuration D by Edward van Vliet for &Tradition.

An evolution of Edward van Vliet's original Develius design from 2018, the Mellow sofa retains the structural framework of the core Develius family, whilst offering a softer seating experience. An additional padded tier has been introduced, creating an extra gentle layer while preserving the sofa's architectural integrity.

Van Vliet describes the evolution of Develius as a maturation of the entire concept, with the addition of a removable cover extending its overall lifespan.

Central to the design of the sofa is its visual lightness achieved via its black wooden legs that elevate the seat. This feature allows it to easily slot into any room without appearing too heavy.

The range includes a variety of options such as chaise longue pieces, end pieces with and without arms and poufs. To see all the available modules, see the product specifications pdf.

Please note that the pricing example seen here is for configuration D. Please enquire about custom configurations.
