### DESCRIPTION

**Develius Mellow Modular Sofa | Configuration F by Edward van Vliet for &Tradition.**

An evolution of the original Develius design by Edward van Vliet from 2018, the Mellow sofa maintains the structural framework of the Develius family with an extra layer of padding, resulting in the same aesthetics but with a softer seating experience.

Van Vliet describes the development of Develius as a maturation of the entire concept, with the addition of a removable cover extending its overall lifespan.

The sofa's design features black wooden legs that visually lighten and elevate the seat, making it easy to incorporate into any room.

The range includes a variety of options such as chaise longue pieces, end pieces with and without arms and poufs. To see all the available modules, see the product specifications pdf.

**Please note that the pricing example seen here is for configuration F. Please enquire about custom configurations.**
