DESCRIPTION

Archivo JH43 by **Jaime Hayon** for **&tradition**.

Originally designed by Jamie Hayon for his own home, the Archivo shelves feature irregularly divided compartments, perfect for storing and displaying treasured keepsakes. The shelves' organic curves introduce a playful touch to any space while embodying the Spanish artist's unique aesthetic and signature style.

The Archivo JH43 is a low, double-tiered unit, ideal for showcasing smaller items or serving as a media console. The shelves are available in two larger sizes: the JH44, a three-tiered unit designed for collections and the JH45, a five-tiered unit suited for displaying larger pieces, which can be discovered in the 'related products' section below.

Each shelf measures 38cm in depth to accommodate the standard 12" vinyl record size.

Available in three carefully selected colours: Sky Blue, which reflects Hayon's love for vibrant hues; Black Grey, which offers a more neutral choice; and Oak, which provides a timeless, classic appeal.
