DESCRIPTION

In Between Table SK24 by **Sami Kallio** for **&Tradition**.

The SK24 is the newest addition to the In Between collection. The low table has been meticulously handcrafted using premium FSC-certified wood, bringing an element of refined simplicity to your living space. It is available in three exquisite finishes: black lacquered oak, oiled oak, and smoked oiled oak.

The In Between table artfully combines traditional and contemporary design elements, drawing inspiration from both stools and chairs from the range. Its chamfered edge mirrors the concept of negative space present in the seatback of the chair and stool, while the lathe-turned solid wood legs echo the shape of the seating's legs. The end result is a table that emanates warmth and familiarity, seamlessly blending into modern homes and becoming an indispensable part of everyday life.

The table is also available in other sizes. Combine the table with the rest of the In Between collection to create the perfect living space. Please view the product range section below for the complete collection.
