The Lucca lamp, designed by Space Copenhagen founders Signe Bindslev Henriksen and Peter Bundgaard Rützou, is a portable, dimmable lamp that creates a cosy, inviting atmosphere with its soft, curved design and satinised opal glass shell.

The inspiration behind the light came from the charming coastal towns and countryside villages across the Mediterranean. The designers were captivated by the whimsical narrow, winding roads that were bathed in a distinct golden glow at night and wanted to recreate this in a portable lamp.

Lucca has a discreet dimmer with three lighting settings and is suited for indoor and outdoor use.
