

Rotate Mobile Side Unit

Designer: **Space Copenhagen**

Manufacturer: **andtradition**

~~Was £365~~ Now £310

DESCRIPTION

Rotate Mobile Side Unit SC73 by **Space Copenhagen** for **&Tradition**.

The beauty of Rotate lies in its simplicity and accessibility. With a simple fold of a metal sheet, it transforms into a functional shape that can fulfil various purposes, including an office trolley, a bedside table or a bathroom storage unit.

The asymmetric design, which allows access from any angle, takes inspiration from the Japanese art of origami. This is evident in the construction of the unit, which is made from a single sheet of powder-coated steel cut into two pieces, then expertly bent and welded together.

The unit is available in a range of contemporary colours and has discreet wheels making it easily manoeuvrable.

DIMENSIONS

35w x 35d x 59cmh

Steel thickness: 0.2cm

MATERIALS

Powder coated steel.
