DESCRIPTION

Thorvald Dining Table by **Space Copenhagen** for **&tradition**.

Designed by Space Copenhagen, the Thorvald Dining Table pays tribute to the neo-classical artist Bertel Thorvaldsen and his hometown, Copenhagen, drawing inspiration from his work and the eponymous museum in Denmark where much of it lives.

The collection has a subtly sculptural presence, which allows it to seamlessly integrate with its surroundings whilst offering an airy and inviting appearance.

With its solid tabletop, the dining table has been intentionally designed to contrast with the wireframes of the seats of the range, creating a harmonious opposition when positioned together.
