DESCRIPTION

Thorvald Side Table by **Space Copenhagen** for **&tradition**.

The Thorvald collection exudes a subtly sculptural presence, seamlessly merging with its surroundings to present a light and inviting appearance.

Characterised by rhythmic lines and gentle curves, the range was designed by Space Copenhagen, drawing inspiration from the neo-classical artist Bertel Thorvaldsen and his hometown, Copenhagen.

The Thorvald Side Table features a solid tabletop, intentionally contrasting with the wireframes of the seats. This opposition creates a harmonious visual dynamic when the pieces are placed together.

Pair the side table with the Thorvald Lounge Chairs (available in the related product section below) to create the ultimate outdoor relaxation experience.
