

Gallon Side Table

Designer: **Daniel Schofield**

Manufacturer: **Another Country**

£1,155

DESCRIPTION

Gallon Side Table by **Daniel Schofield** for **Another Country**.

The Gallon Side Table, designed by Daniel Schofield for Another Country, draws inspiration from a milk can, the traditional vessel used to transport small quantities of fresh milk to the consumer before industrial-scale milk production.

The charming table is fashioned from a solid block of white oiled, laminated ash, and as a result, each table has a unique grain and is liable to splitting due to the thickness of the woods. Another Country and Daniel Schofield consider this an intentional part of the design.

DIMENSIONS

Tall: 30dia x 46cmh

Low: 36 dia x 30cmh

MATERIALS

Solid Ash, White Oil & Wax
