

Slim | Rectangular

Designer: **Bertjan Pot**

Manufacturer: **Arco**

£1,793

DESCRIPTION

Slim Table | Rectangular by **Bertjan Pot** for **Arco**.

With its unique steel-sandwich construction and delicate wood layer, the Slim Table boasts a slender yet resilient design. According to designer Bertjan Pot, this composite structure challenges traditional ideas of authenticity but ultimately enhances the table's genuine appeal. The materials were thoughtfully chosen for their unique characteristics - metal for its strength and wood for its visual appeal and tactility, resulting in a sleek and highly durable table.

First introduced in 2005, this minimalist masterpiece embodies innovation and is available in various finishes and sizes. It is the perfect table for working or living, thanks to its versatile and contemporary design.

Pair with the Slim Flex for a flexible extension to any of the rectangular tables.

The Slim collection won the Dutch Design Awards in 2007, a gold in the Product Design Awards 2008 and a Sanoma Woon Award in 2006.
