

Children's Chair N65

Designer: **Alvar Aalto**

Manufacturer: **Artek**

£391

DESCRIPTION

Children's Chair N65 by **Alvar Aalto** for **Artek**.

Artek stands for art and technology. The Finish company is renowned as one of the most innovative contributors to modern furniture design. They stand out for the clean lines, quality and longevity of their products, all made using a combination of traditional craftsmanship and new technology.

Children's Chair N65 boasts clean lines and a simple, elemental structure. The chair models a low rectangular backrest formed from a single piece of birch plywood. Since the backrest follows a slight curve, it forms naturally to the back, offering comfort and support. Created from the original L-leg system of standardised components, Children's Chair N65 features a recognisable circular seat. Equally suited to homes, public buildings, and educational facilities, it has been part of children's lives since 1935.

An upholstered version also available, please enquire for information.

Assembly required.

Quickship available in White Laminate only

DIMENSIONS
