

Kori Pendant with Disc Shade

Designer: **TAF Architects**

Manufacturer: **Artek**

£358

DESCRIPTION

Kori Pendant with Disc Shade by **TAF Architects** for **Artek**.

Discover the Kori Pendant Light from the versatile 2023 Kori Collection, featuring a unique 'basket' design that delivers practical, attractive, and glare-free direct lighting to surfaces below. With its stunning pendant and a wider cone of soft indirect light that creates a warm and inviting atmosphere in any room, this light is a perfect choice for your home.

Crafted to be small and elegant, the Kori Pendant Light is ideal for illuminating small spaces such as hallways, serving as a compact accent light above sideboards, or as a task light in series above kitchen counters. Its sculptural yet compact Disc Shade skillfully alters the effect of the light, casting a glare-free functional light directly onto surfaces below, while the indirect light created within the 'basket' is reflected downwards by the shade's curved form, creating a wider cone of diffuse light.

Whether you need a functional light for smaller tables and counters or an atmospheric and eye-catching accent light for dining tables, the Kori Pendant Light is a must-have lighting solution sure to transform any ambience.
