

Ixa Table Lamp, 2023

Designer: **Foster and Partners**

Manufacturer: **Artemide**

£468

DESCRIPTION

Ixa Table Lamp by **Foster + Partners** for **Artemide**.

Drawing inspiration from the dynamic sculptures of Alexander Calder, the design of the Ixa range embodies the concept of "elegant balance" through meticulous engineering. This comprehensive and versatile collection is created by combining an adjustable spherical head, rods, and counterweights. By incorporating a larger head along with recalibrated wall and ceiling structures, the weight is carefully balanced, while illuminating the space to cater to diverse lighting requirements.

It is a comprehensive and versatile collection, with its foundation being a spherical head that boasts 360° freedom of movement. The Ixa head ingeniously separates the electrical cable from the mechanism and magnetically connects to the structure, enabling effortless rotation and projection of its light in any desired direction.

With its flexibility, functionality, and dynamic quality of its light, the Ixa table lamp boasts clean, gentle lines that exude timeless and understated elegance. This characteristic aesthetic enables Ixa to seamlessly adapt to numerous settings, ensuring its longevity and making it an integral part of sustainable projects for years to come.

Available in Anthracite, White Grey, Blue or Yellow colour.

DIMENSIONS

20cm base diameter x 40.3w x 42.4cmh

MATERIALS

Aluminium and steel body with technopolymer shade.

Dimmable.

Light source (included):

Watt: 9W

Delivered lumens output: 465lm

CCT: 3000K

Efficiency: 56%

Efficacy: 51.69lm/W

CRI: 90

IP20
