DESCRIPTION

Iris Coffee Table by Daniel Lavonius Jarefeldt for Asplund.

Daniel Lavonius Jarefeldt was inspired by Japanese wood joining techniques and Swedish artisanal craftsmanship while designing the Iris Coffee Tables. The result is a collection of three circular lounge tables with a minimalist aesthetic and tasteful detailing.

Iris's soft, rounded base corners create a seamless transition to the tabletop, which doubles as a tray. It is crafted using high-quality materials, with an intentional focus on highlighting the natural beauty of the wood.

Iris is equally suitable for both personal and public spaces, whether individually or in groups.
