

Astier de Villatte Candle

Manufacturer: **Astier de Villatte**

£62.50

DESCRIPTION

Scented Candles by Astier de Villatte.

Astier de Villatte candles are scented with perfumes specially developed by celebrated perfumer Françoise Caron, in collaboration with the Takagaso Perfumery in Japan. Each fragrance evokes the distinct and alluring character of a different destination around the world.

Nara: Inspired by a small and tranquil Japanese town by the same name. Full of beautiful temples and a park with freely roaming deers, this namesake scent features the essences of sandalwood amyris, ginger roots, sambac jasmine, amber and cashmere.

Villa Medicis: This fragrance encapsulates the essence of Rome's Villa Medici's artists' workshops which overlook the majestic gardens, where the scents of lemon, lavender, and cedar pervade the air.

Stockholm: Inspired by the famous Swedish Bitters Elixir, used by King Gustav II to make his Viking warriors invincible, this candle exudes an irresistible scent with notes of Clary Sage, Haiti Vetiver, Virginia Cedar, Brasil Orange, Lavandin, Petitgrain, and Clove.

Aoyama: Designed by Françoise Caron, this candle evokes the scent of an old Japanese house with a blend of wood, incense, and freshly laundered linen. Includes notes of Patchouli, smoked wood, cloves, moss, and more.

Rue Saint-Honoré: Transport yourself to a late afternoon in the boutiques of Old Paris. Enjoy the scent of soft powdery clouds, jasmine rose, and delicate green paired with warming amber and leather.

DIMENSIONS

9dia x 10cmh

260g

MATERIALS

The candles contain a fine blend of vegetable and beeswax without any petrochemical products. Wicks are pure braided cotton and have a slow burn time of 60-70 hours, depending on the scent.

Keep wick central and trimmed to 5-6mm for even burning.

The glass container has been hand-blown in Tuscany and can be retained for use after the wax is finished.
