DESCRIPTION

Scented candles by Astier de Villatte.

Astier de Villatte candles are scented with perfumes specially developed by celebrated perfumer Françoise Caron, in collaboration with the Takagaso Perfumery in Japan. Each fragrance evokes the distinct and alluring character of a different destination around the world.

Kobe: The ancient Japanese city is summoned by a warm, spicy scent of crystallised ginger, coriander root and sweet fig.

Villa Medicis: The subtle scent of lemon tree leaves, lavender and oregano flowers mixed with the woody aroma of cedar.

Stockholm: This historic scent was given by the Swedish King to his Viking soldiers, for invincibility. A striking mix of wild plants, cloves, lavandin, myrrh, vetiver and sage

MATERIALS

The candles contain a fine blend of vegetable and beeswax without any petrochemical products. Wicks are pure braided cotton and have a slow burn time of 60-70 hours, depending on the scent.

The glass container has been hand-blown in Tuscany and can be retained for use after the wax is finished.
