

Collector Chandelier 3

Designer: **Alf Svensson**

Manufacturer: **Audo Copenhagen**

£1,415

DESCRIPTION

Collector Chandelier 3 by **Alf Svensson** for **Audo Copenhagen**.

Designed in the 1950s by Swedish designer Alf Svensson, the Collector series is a timeless mid-century design lighting collection featuring a perforated conical-like shade design to fill spaces with cosy, ambient light.

One of three lights in the collection, the collector chandelier features a solid brass pipe ring with six perforated metal shades emitting light both upwards and downwards to illuminate spaces with its timeless aesthetic. The tiny perforations in the shade allow the light to seep through, providing subtle ambient lighting.

Explore the rest of the mid-century modern style Collector range below.
