

Collector Wall Lamp

Designer: **Alf Svensson**

Manufacturer: **Audo Copenhagen**

£590

DESCRIPTION

Collector Wall Lamp by **Alf Svensson** for **Audo Copenhagen**.

Designed in the 1950s by Swedish designer Alf Svensson, the Collector series is a timeless mid-century design lighting collection featuring a perforated conical-like shade design to fill spaces with cosy, ambient light.

One of three lights in the collection, the wall-mounted lamp comes with a solid brass band that holds a conical metal shade which projects the light in two directions. The tiny perforations in the shade allow the light to seep through, providing subtle ambient lighting.

Explore the rest of the mid-century modern style Collector range below.
