

Carrie Portable, Bronzed Brass/Leather

Designer: **NORM.architects**

Manufacturer: **Audo Copenhagen**

£190

DESCRIPTION

Carrie Portable Table Lamp, Bronzed Brass/Leather by **NORM.architects** for **Audo Copenhagen**.

The Copenhagen-based Norm Architect's Carrie table lamp is a unique and practical lighting solution. Created in line with the Danish concept of hygge it is a relaxing and warm light that can be moved around the home; to add a sense of cosiness to a living space, or to comfort by a bed.

Its minimalist form is easy to use, with a small button to illuminate and dim, and a brushed steel or brass handle to carry it. Bounded by soft durable leather on its browned metal handle, the portable Carrie table lamp resembles a warm orb of light in its basket-like base.

The table lamp provides up to ten hours of light when fully charged allowing you to move the lamp effortlessly from the table to the terrace. Use it as a bookcase lighting, or desk light.

To keep the internal battery healthy, only leave the Carrie plugged in during charging, with the lamp off. Do not leave plugged in while in use. The lamp can be charged using a concealed magnetic connector and USB cable. Comes without a charger plug.

IP44.
