

Hashira Cluster Pendant Lamp

Designer: **NORM.architects**

Manufacturer: **Audo Copenhagen**

£710

DESCRIPTION

Hashira Cluster Pendant Lamp by **NORM.Architects** for **Audo Copenhagen**.

Inspired by the traditional Japanese rice paper lantern, Copenhagen based design duo Norm Architect's introduced the Hashira Collection for Audo Copenhagen. The Nordic interpretation offers a contemporary, minimalist collection of floor, pendant and table lamps for modern spaces.

"Spreading ambient light in a room, the Hashira Collection makes for purposeful lighting above a dining table, in a reception area or on a table in a hotel bedroom, bringing a sense of understated luxury and purpose to interior spaces" **Norm Architects**.

Named after the Japanese word for column, the cylindrical form of the Hashira Cluster Pendant Lamp perfectly balances simplicity and character. The slender lamp is handmade in an elegant semi-translucent linen fabric that softly diffuses a warm glow, emphasising the sculptural structure of the lamp's interior. The trio of pendants suspends from a black textile cord to create the collection's cluster light. Demonstrating the Scandinavian design principles of restraint and refinement, the Cluster pendant brings a sense of understated luxury, purposeful in any setting.

The Cluster Pendant Light is available in two sizes and two colours. Explore the rest of the Hashira collection, also created with the same column-like shape to fill spaces with a cosy, ambient light. Please see product range below.
