

Bambi Table

Designer: **Nendo**

Manufacturer: **Cappellini**

£2,935

DESCRIPTION

Bambi Table by **Nendo** for **Cappellini**.

A versatile table with generous dimensions, the Bambi was first designed in 2008. The angular table showcases a simple aesthetic, distinguished by its crossed legs that join at the table's edges.

With the legs positioned at the very end of the table, there is ample vacant space for the movement of your legs, allowing you to stretch and re-position with ease when sitting for long periods.

The table comprises a folded laser-cut aluminium plate for the tabletop, with a metal support base and legs in metal extrusion, and is available matte lacquered in the colours white, black or mud.

DIMENSIONS

150w x 60d x 73cmh

MATERIALS

The Bambi table top is made from metal plate, cut by laser and folded-up; supporting structure is in metal, legs are aluminium extrusions.

Finished with matt lacquer in the colours white, anthracite or mud.

Please see product downloads section for material samples.
