

Eva Lounge Chair

Designer: **Bruno Mathsson**

Manufacturer: **Bruno Mathsson International**

£1,964

DESCRIPTION

Eva Lounge Chair by **Bruno Mathsson** for **Bruno Mathsson International**.

Bruno Mathsson conducted a study on the "mechanics of sitting" in the early 1930s by sitting in a snowdrift and observing his body's imprint in the snow. Based on this work, Mathsson designed a series of chairs, including the work-rest, which he showcased in 1936 at the Röhsska Arts and Crafts Museum. The exhibition was well-received and established Mathssons position as a prominent designer in Sweden.

Over time, Mathsson continued to refine the work chair. He added armrests and, in 1941, arrived at its final form, which he named Eva.

DIMENSIONS

60w x 71d x 34/82cmh

MATERIALS

Seat frame crafted from solid birch, with base in laminated beech (lacquered or unlacquered) or smoked oak.
