DESCRIPTION

Pernilla 1, Webbed by **Bruno Mathsson** for **Bruno Mathsson International**.

The Pernilla chair epitomises Mathsson's fascination with improving ergonomics, which began in the 1930s when he started studying the "mechanics of sitting." To conduct his research, Mathsson sat on a snowdrift and observed the imprint his body made.

The Pernilla chair, featuring a unique ergonomic design and a low centre of gravity, is widely considered a significant piece in the early Swedish modernist movement. Mathsson chose high-quality materials such as woven hemp for the seat and solid beech and bentwood for the frame to provide comfort and create an eye-catching design.
