

Knotted Chair

Designer: **Marcel Wanders**

Manufacturer: **Cappellini**

£4,020

DESCRIPTION

Knotted chair by **Marcel Wanders** for **Cappellini**.

The iconic Knotted Chair is a brilliant adult interpretation of the tiny chairs used to decorate a doll's house, a visionary creation by designer Marcel Wanders in 1996. This project has been officially consecrated by earning a place in the permanent collections of the MoMA in New York, the V&A Museum in London and the Stedelijk Museum in Amsterdam.

By eliminating the distinction between artisanship and industrial production, Wanders has turned this chair into a work of art to be cherished in the home and integrated into our daily lives.

The macramé technique that inspired the design of the Knotted Chair has been revisited in a surprising structure made of carbon covered with aramide fibre cord and then coated with epoxy resin. Thus, an innovative object was born, with an intrinsically romantic allure: a collector's piece, utterly unique in the history of international design.

DIMENSIONS

53w x 64d x 31/69cmh

MATERIALS

Small lounge chair made from plaited carbon and aramide fiber cord coated with an epoxy resin.
