

Alodia

Designer: **Todd Bracher**

Manufacturer: **Cappellini**

£400

DESCRIPTION

Alodia Stool by Todd Bracher for Cappellini.

Defined by its minimalistic structure, the Alodia stool designed in 2010 is an understated and stackable seat comprised of four parts; two bent metal tubes, a laser-cut sheet metal seat and black plastic feet.

The functional design draws on the bare essentials, delivering a sleek and refined sculptural form that adds a modern touch to its environment.

The graphic stool is available in two heights and three different colours, allowing it to be customised to suit its space.

DIMENSIONS

Low stool 54w x 46d x 70cmh

High stool 54w x 46d x 80cmh

MATERIALS

Laser-cut metal plate seat with tubular frame.

Available in the colours white, anthracite, blue, green, and mustard.

Please see product downloads section for material samples.
