CH24 Wishbone Chair

Designer: **Hans Wegner**

Manufacturer: **Carl Hansen and Son**

~~Was~~ Now £524

DESCRIPTION

CH24 Wishbone dining chair by Hans J. Wegner for Carl Hansen & Son.

To celebrate Hans J. Wegner's 110th Birth, the teak/oak oil finish will be available for a discounted price. Limited offer until 31st December, 2024.

The CH24 chair was designed in 1949 and has been in continuous production since 1950, making it one of the most immediately recognisable and widely loved designs of the twentieth century.

The CH24 was the first chair Wegner designed for Carl Hansen & Son. Popularly known as the 'wishbone chair' or 'Y' chair because of the signature steam-moulded Y-shaped back which provides support and stability, the CH24 is constructed using more than 100 separate production stages. The chair seat is handwoven using 120 metres of paper-cord, durable enough to last up to 50 years.

The Wishbone chair is an excellent example of Wegner's constant striving towards organic simplicity to create sculptural beauty, comfort, and outstanding stability.

The CH24 is available in a range of other woods and finishes: please see 'More products in this range' below for alternative options.

Quick delivery is available in oiled oak finish with natural papercord seat.

DIMENSIONS

55w x 51d x 45/76cmh

MATERIALS

Frame in a range of woods with a variety of finishes. Seat in natural, white or black paper cord. Please refer to PDF downloads for finishes and maintenance advice.
