

## 525 Table En Forme Libre

Designer: **Charlotte Perriand**

Manufacturer: **Cassina**

£8,952

### DESCRIPTION

**525 Table en Forme Libre** by **Charlotte Perriand** for **Cassina**.

The first table in this series was designed by Charlotte Perriand in 1938 for her studio in Montparnasse. Its rounded asymmetric form makes it ideally suited to smaller spaces and thanks to its lack of corners affords space for many people to sit together. The design is complemented by three support legs, one larger and oval-shaped, the other two cylindrical.

The model was identified by Cassina as the most suitable for modern living spaces and was re-issued in 2011.

### DIMENSIONS

236w x 107d x 74cmh

### MATERIALS

The table is made from solid wood and has a rounded surface.

It is available in mahogany and matt or glossy lacquered wood. Different tabletop colour finishes are available for both matt and glossy, please refer to the finishes pdf in the downloads section for more information.

Wood is a natural material, subject to changes caused by external factors such as sunlight, temperature, humidity and daily use.

These changes are not to be considered as faults but peculiarities of the material, emphasising its natural beauty.
