

835 Infinito Bookcase

Designer: **Franco Albini**

Manufacturer: **Cassina**

£13,775

DESCRIPTION

835 Infinito Bookcase by **Franco Albini** for **Cassina**.

Modular bookcase designed in 1956, composed of vertical elements, a container with doors, a container with a flap and shelves available in two different depths.

The vertical elements, fixed using pressure between the floor and ceiling, offer the option to adjust the height from 268 cm to 290cm; a series of holes allows the option to fix containers and shelves at different heights.

The pressure fixing system means the shelves do not need to be fixed to a wall, making these a flexible addition to your home.

Please note; the pricing example is for a bookshelf with **3 vertical elements, 8 80cm wide shelves** and **an 80cm wide flap container**, as seen in the main image. Other combinations are available, please enquire for details.

DIMENSIONS

175w x 25d x 268/290cmh

Individual shelf: 80w x 25d x 5cmh

Flap container: 80w x 35d x 41.8cmh

MATERIALS

The available finishes are, natural ash, ash stained black, or American walnut.

Please refer to the product downloads section to discover the available finishes

A smaller version of the 835 Infinito bookcase is available **here**.
