DESCRIPTION

195 Naan Dining Table by **Piero Lissoni** for **Cassina**.

The Naan table, designed in 2009, has a delicate appearance but solidity to its frame. Lissoni was deliberate in his highlighting of the austerity of its form. The ultra-light rectangular tabletop is only 10 mm thick, stability is ensured through an internal anchoring system within the aluminium legs covered in wood.

“It exudes a certain freshness of conception. A frame traced by minimal lines. Extremely fine elements, unconventional proportions and exaggerated dimensions combine to create a strong, solid and resilient piece. Though constructed entirely of wood, the more you study it, the more it seems made of air.”

The Naan range includes larger sizes as well as extendable options. **Please note;** pricing example is for a table **240cm wide**, please enquire here for alternatives.
