

Catifa 53 chair, 2001

Designer: **Lievore Altherr Molina**

Manufacturer: **Arper**

£218

DESCRIPTION

Catifa 53 stackable chair by Lievore Altherr Molina for Arper.

The graceful curves and sleek profile of the Catifa chair are matched by its adaptability. This highly adaptable chair may be customised using an extensive variety of finishes, bases, upholstery and accessories for a wide variety of applications or contexts, without compromising its essential character.

Please note: The price and image displayed are for the four-leg polyurethane version without arms. Alternative finishes, upholstery, heights, and leg options are also available. Please contact us **here** for further information.

DIMENSIONS

63w x 50d x 45/78cmh

MATERIALS

Wide stackable chair with the four-leg base frame, available in chromed and powder coated LU1 steel and matt V39 black steel. The shell is available in polypropylene shell. Also available with front-face upholstery in hard leather.

Please see downloadable pdf in the product downloads section for polypropylene colour samples, upholstery leather samples and frame finish samples.
