DESCRIPTION

Chasen S2 lamp by Patricia Urquiola for Flos.

Patricia Urquiola's Chasen lamp offers an organic expression and diffused lighting to its environment. Its unique silhouette is made from a chemically photo-etched stainless steel body with a borosilicate diffuser coated with a liquid paint that offers protection.

The light emission can be adjusted through a mechanical movement that opens the louvers, allowing the lamps shape to be altered.

Chasen comes with a steel suspension cable and an FEP/PVC power cord in the same colour as the lamp.
