Pesci is a variant on Mari's 16 Animali, first produced for Danese Milano in 1957. The Ani,ali puzzle marked the start of a long collaboration between Enzo Mari and Danese Milano. The modular puzzle became one of the best-known examples of educational design.

In 2003, Danese reissued a limited run of 200 puzzles each year. Each puzzle comes with an official authentication and quality control number and date of production.
