

## In The Tube 360° Pendant

Designer: **GLP DPA**

Manufacturer: **DCW Editions**

£580

### DESCRIPTION

**In The Tube 360° pendant light by Gaëlle Lauriot-Prévost & Dominique Perrault for DCW éditions.**

Designed in 2018, the In The Tube 360° pendant light is a decorative and highly flexible pendant light featuring innovative LED technology to deliver 360° light emission.

The outdoor option includes a connection box to protect the driver and wiring from water and humidity. This box can also be used to hide wiring when mounted indoors. To include a connection box in your order, please choose the outdoor option.

The external device driver is supplied as standard.

### DIMENSIONS

Small: 42w x 7cmh  
Medium: 72w x 7cmh  
Large: 102w x 7cmh  
Extra large: 162w x 7cmh

## MATERIALS

Inspired by the industrial striplights commonly found in French power stations, a borosilicate glass tube houses an LED strip inside a frosted diffuser.

Stainless steel hangings and aluminium stoppers sealed with silicon ensure the light is entirely water and weather-resistant, making it suitable for use indoors and outdoors.

An optional mesh is available to further diffuse and add character to the light. Available in silver or gold

Light source (integrated):

Small: 220-240V, 12W, CL II, 2700K, 1200lm.  
Medium and large: 220-240V, 18W, CL II, 2700K, 1800lm.  
Extra large: 220-240V, 32W, CL II, 2700K, 3000lm.

IP65 rating.
