

Poudrier

Designer: **Phillipe Nigro**

Manufacturer: **DCW Editions**

£447

DESCRIPTION

Poudrier by **Phillipe Nigro** for **DCW éditions**.

Akin to a powder case or a precious box, the tactile experience of opening or closing Poudrier offers comfort and instant familiarity. Its luminance permeates through a thick glass panel, illuminating uniformly. Within, the refined brass surface functions as a pivoting mirror, pivoting visibly on a hinge.

The illumination is controllable, allowing for adjustment. Its manual adjustability is unique, employing a shutter mechanism rather than a traditional dimmer, enabling the regulation of light intensity by opening or closing.

Initially crafted for bathroom settings, Poudrier finds versatility in its application, suitable for adorning hallways or entrances.
