DESCRIPTION

Yasuke Table Lamp by **Studio BrichetZiegler** for **DCW éditions**.

Daring in its form, the Yasuke table lamp from DCW editions is a contemporary statement light that effortlessly adapts to suit your needs.

DCW describes it as a fusion of futurist architecture, 21st-century crinoline, and spaceship aesthetics; its sculptural silhouette boasts two cylindrical legs supporting a cage-like structure that houses the LED light source.

Inspired by the sun's trajectory, the Yasuke lamp is equipped with dual dimmers, allowing the flexibility to customise the lighting experience. One dimmer oversees the bulb's colour temperature, while the other manages its brightness.
