

Greenhouse, 2018

Designer: **Atelier 2+**

Manufacturer: **Design House Stockholm**

£760

DESCRIPTION

Greenhouse by **Atelier 2+** for **Design House Stockholm**.

Bangkok-based Design duo Atelier 2+ have created a greenhouse that straddles the boundary between art and design. It's small enough for indoor use but large enough to house a miniature garden.

Worapong Manupipatpong and Ada Chirakranont originally created the Greenhouse for the magazine Wallpaper's annual Handmade Exhibition, interpreting the concept of 'handmade' as a term to reflect the way the item is cherished as well as the way it was manufactured.

The frame is available in ash or dark grey.

The wooden support converts it into a freestanding ornament in the room. The hatches can be secured in the raised position while working with the plants.

Please note this is for indoor use only.

Comes with optional standing base.
