DESCRIPTION

Ditzel Lounge Chair by **Nanna Ditzel** for **Fredericia**.

As the head of Fredericia since the beginning of the 1980s, Nanna Ditzel was a talented designer with an experimental approach towards her use of materials. Together with her husband, Jørgen, Ditzel created an innovative chair that would allow people to think in new ways by sitting in new ways. It was designed to be attractive at all angles and features a sculptural, natural curved form.

The chair is a modern take on the traditional easy chair with added room for comfortable seating, along with a generous curved back and armrests. It is suited to spaces such as hotel lobbies and executive suites, reception areas, high-end lounges and private residences.

The Ditzel Lounge Chair has been certified with the Greenguard Gold Certification. Products that have achieved the Greenguard Gold Certification are scientifically proven to meet some of the world's most rigorous third-party chemical emissions standards, helping to reduce indoor air pollution and the risk of chemical exposure.
