### DESCRIPTION

**Flower Lamp** by **Poul Cadovius** for **DK3**.

The Poul Cadovius Flower lamp transcends the realm of mere illumination – it serves as both an ornament and an installation, offering a unique way to introduce greenery into your surroundings. Its inception was inspired by two key concepts: Cadovius's vision of furniture that doesn't utilise floor space and the popular 1960s trend of illuminating outdoor flowerbeds.

This lamp is exceptionally versatile and capable of being arranged in various configurations. You can install it as a solitary fixture, group several lamps closely together, line them up side by side, or even suspend them slightly above the floor – a nod to the innovative approach taken in the Cadovius showroom during the 1960s.
